Adonis Villamor

Tech Lead / Senior Full-Stack Engineer | Product Engineering & Parallel Programming | TypeScript, Node.js, Next-Gen AI Dev (Claude Code, Codex, Antigravity)
Metro Manila, National Capital Region, Philippines

Summary

I am a seasoned Full-Stack Engineer and Engineering Manager with a proven track record of working with global, professional-grade systems and leading high-performing technical teams. I focus on transforming complex business requirements into elegant, scalable software. Driven by a passion for building next-generation products, I have heavily focused my recent engineering practices on personal product engineering and parallel programming with AI tools. By deeply integrating cutting-edge AI orchestration tools into my workflow—specifically Claude Code, Codex, and Antigravity—I design and optimize high-concurrency systems and accelerate product cycles from concept to baseline codebases at extreme speed due to my +20 years of experience writing and reviewing codes.

Core Expertise:

- Architecture & Backend: TypeScript, Node.js, Fastify, Prisma, PostgreSQL, Redis, NestJS, Docker
- Frontend & UI/UX: React.js, Next.js, HTML5/CSS3, Product Prototyping
- Next-Gen Engineering: Parallel Programming, AI-Agent Workflows (Claude Code, Antigravity), Distributed Systems
- Leadership: Technical Product Delivery, Agile Engineering Management, Cross-functional Stakeholder Alignment

Whether architecting a high-concurrency engine or shaping a digital product from the ground up, I build with performance, scalability, and modern automation at the core. Explore my work: <http://bytecommander.com>

Experience

Console Connect

Senior Software Engineer

June 2024 - Present (2 years 1 month)

Philippines

ConsoleConnect is subsidiary of PCCW Global/HKT. Focused on providing connectivity infrastructure services around the world, we ensure the ease of delivering these services through automation of purchasing and its operations.

We worked on ConsoleConnect Portal which handles the public facing web app to which users can create subscriptions and monitor their accounts, the back-office systems like Vendor management, contract procurement systems, Jira and Hubspot Automations, Process orchestrations via Camunda and BPMN, and more.

PCCW GLOBAL Limited

Senior Software Engineer

June 2024 - Present (2 years 1 month)

National Capital Region, Philippines

PCCW Global/HKT is our parent company in Console Connect which manages our main operations in Asia.

MZ Advanced Global Solutions

Senior Fullstack Software Engineer

June 2023 - May 2024 (1 year)

Makati, National Capital Region, Philippines

MZAGS manages HR related matters for our employer at SOSA

SOSA

Senior Fullstack Software Engineer

June 2023 - May 2024 (1 year)

Tel Aviv District, Israel

Working directly on several of SOSA's innovative platforms. Utilizing the power of Elasticsearch+Kibana, Crunchbase-API, OpenAI and more. As a fullstack, we manage the project from the Backend (NestJS + Prisma, Rails, OpenAI-API, Crunchbase-API, PostgresDB), Frontend (ReactJS + ReactQuery/Recoil), Test-automation (Playwright, Jest), CICD (Circle CI, Pulumi), Cloud and Hosting (GCP) and more.

Prosource BPO

Tech Lead/Engineering Manager

August 2020 - March 2023 (2 years 8 months)

Makati, National Capital Region, Philippines

Prosource manages staffing and HR matters for SiteMinder

SiteMinder

Tech Lead/Engineering Manager

August 2020 - March 2023 (2 years 8 months)

Sydney, New South Wales, Australia

Worked with the LittleHotelier Project as the TechLead for the newly formed PH based group until March 2022.

- Worked with teams on providing technical delivery of the Onboarding Wizard's image upload feature.
- Worked with teams on providing the technical delivery of the SmartGuide/ SmartCheklist feature
- Worked with teams on the tech delivery for the new business calculation library which will be the source of truth for all taxations and computation rules.
- Worked with teams on the initial specs and breakdown for the Italian Compliance delivery
- Shifted to Engineering Manager on March 2022
- Started working on Goals and 1-on-1s for reporting PH members in LH
- Responsible for tracking and approving leaves for all engineers in the SiteMinder account (beyond LH).
- Responsible for defining some metrics and performance evaluation for direct reporting members
- Worked on some trainings for junior (fresh graduates) discussing topics relative to NodeJS
- Part of job hiring processes (interviews, onboarding)
- Documentation of processes and Tech Specs.

MyPinoy Network

Owner

April 2020 - November 2022 (2 years 8 months)

National Capital Region, Philippines

LenddoEFL

Tech Team Leader/Engineering Manager

December 2015 - April 2020 (4 years 5 months)

Makati

Role:
